About GlycoMimetics, Inc.

GlycoMimetics is a late clinical-stage biotechnology company discovering and developing glycobiology-based therapies for cancers, including Acute Myeloid Leukemia, and for inflammatory diseases with high unmet needs. The company's science is based on an understanding of the role that carbohydrates play in cell recognition. Its specialized chemistry platform is deployed to discover small molecule drugs--known as glycomimetics—that alter carbohydrate-mediated recognition in diverse disease states. As a leader in this science, GlycoMimetics leverages its unique approach to advance a pipeline of wholly-owned drug candidates with the goal of developing transformative therapies for diseases with high unmet need. GlycoMimetics is headquartered in Rockville, MD in the BioHealth Capital Region. Learn more at www.glycomimetics.com.
